

2, 3. Identifies lower case letters by their sound and name

*****This is a good opportunity to check ability to recite the alphabet. Before giving the student the prompt sheet, please ask them to recite the alphabet for you – Score the answer in Box 1 on the score sheet*****

Then, give the prompt sheet. Tell the student that they will need to tell you both the sound and the name of each letter in this activity. For example, its sound is 'a' and its name is 'ay'. Point to each letter and say to the student, "Tell me the sound and the name of this letter?"

Continue left to right across the page to facilitate completing the score sheet.
